Evaluation & Protection

SCORES (4 AXES)

RECOMMENDED PROTECTION PATH

No specific protection needed (general idea)

1. Consult a licensed attorney in your jurisdiction to evaluate protection options.
2. Document your idea thoroughly with diagrams, code, or prototypes.
3. Consider an NDA before sharing with third parties.

Protection requirements vary significantly by country. US, EU, India, UAE, Brazil, and Pakistan have different regimes.

1. This certificate documents the existence of the described idea at a specific date and time on the Ideon platform. It is NOT a patent, NOT a registration of intellectual property, and NOT official legal protection.
2. The Ideon scores are initial evaluations produced by an artificial intelligence model. They are computational opinions, NOT predictions of commercial success, legal validity, or market value.
3. Ideon accepts NO legal or financial responsibility for the value, success, or marketability of the idea. The idea owner is solely responsible for any investment or business decisions.
4. This certificate does NOT grant any official legal protection. To obtain legal protection, the user must consult a licensed attorney in their jurisdiction and follow official registration procedures.
